

List of candidates qualified or not qualified to get their TARGET CISF Skill Test Result

CISF HCM Skill Test Link https://rkcnawada.online/cisf-head-constable-ministerial-typing-test/Eng_Test/login.php

The total typing speed is calculated by subtracting four times the total number of type mistakes (C) from the gross word typed (1). The net word typed (2) is then determined as the result of this subtraction. The net typing speed (3) is calculated by dividing the net word typed (2) by 10. The final typing speed, expressed in words per minute.
